Game times represent a time for youth to participate in structured youth athletics programming. The games themselves should be treated closer to scrimmages, as not all participants may be in the position to return back to playing games.

Teams in U6 and U8 Soccer are scheduled one or two more games based on games already completed. Teams will finish the season with an equal number of games. The soccer season will still end at the approximate time to allow for participants signed up for basketball ample time to transition into the basketball season.
